

# Day4 Data Visualization Practice

Presented by Hyebyong Choi

# Kenyan oil prices 2010 - 2018

---

- Kenyan oil prices datasets are available from: Kaggle dataset
  - <https://www.kaggle.com/datasets/sophicist/oil-prices-v2>
- Make some graphs to show how the oil price changes over time?
- Is there any period when prices change drastically?

# Distirbution of crop production Kenya 2019 census

---

- The dataset contains a summary of the distribution of households practicing agriculture by county and sub-county level. Kenya currently has 47 counties (states) which contain several sub-counties. The dataset is based on the previous census enumeration done in 2019.
- <https://www.kaggle.com/datasets/osiroski/distirbution-of-crop-production-kenya-2019-census>
- Make some graphs to show the distribution of households practicing agriculture and the difference between counties.

# Kenya Cars on Sale

---

- This file contains more than 46000 entry of cars that are on sale in Kenya as of November 2021. The data was scraped from local online dealers. The data does not contain any personal information on the car nor the person or entity that is selling the car.
- Available from <https://www.kaggle.com/datasets/rukwarop/kenya-cars-on-sale>
